

## Magdalena Stapinski, Manager Integrated Regional Falls Program

Magdalena Stapinski is the Manager of the Integrated Regional Falls Program (IRFP) responsible for the management and operation of the IRFP, a component of North Simcoe Muskoka Specialized Geriatric Services (NSM SGS).

Prior to joining the NSM SGS program, Magdalena held a variety of leadership positions including; Advanced Practice Nurse Educator in the Neuro Program at Toronto Rehab, University Health Network; Manager of the Cardiac, Transplant, Amputee Rehab Program at St. John's Rehab, Sunnybrook; Manager and Interim Director of Inpatient Services at Muskoka Algonquin Healthcare; and Program Manager of IRFP at Orillia Soldiers' Memorial Hospital.

Magdalena believes that in order to make a real difference in the care we provide, we need to include patients and families as part of the care team. This will create a customized care plan that is reflective of each patient's values, choices and needs.

Magdalena is a Registered Nurse with a Master of Science (in Nursing) from D'Youville College in Buffalo, New York. She holds a certificate in Rehabilitation Nursing from the Canadian Nurses Association and a Patient Safety Officer Certificate from the Canadian Patient Safety Institute in Ottawa.
